

DWA_04.3 Knowledge Check_DWA4

1. Select three rules from the Airbnb Style Guide that you find **useful** and explain why.

Naming Conventions - Clear naming conventions make your code more readable and understandable. Avoid Single letter names and do not use trailing underscores.

Comparison Equality - The using of strict comparisons considers both the value and the data type which helps avoid coercion problems.

Variables- Always make use of const instead of var. This is for best practice and prevents overflow of the global namespace.

2. Select three rules from the Airbnb Style Guide that you find **confusing** and explain why.

Comments - I am used to using JSDOCS commenting methods so i am not use to long comments

Classes - I dont understand classes 100%
